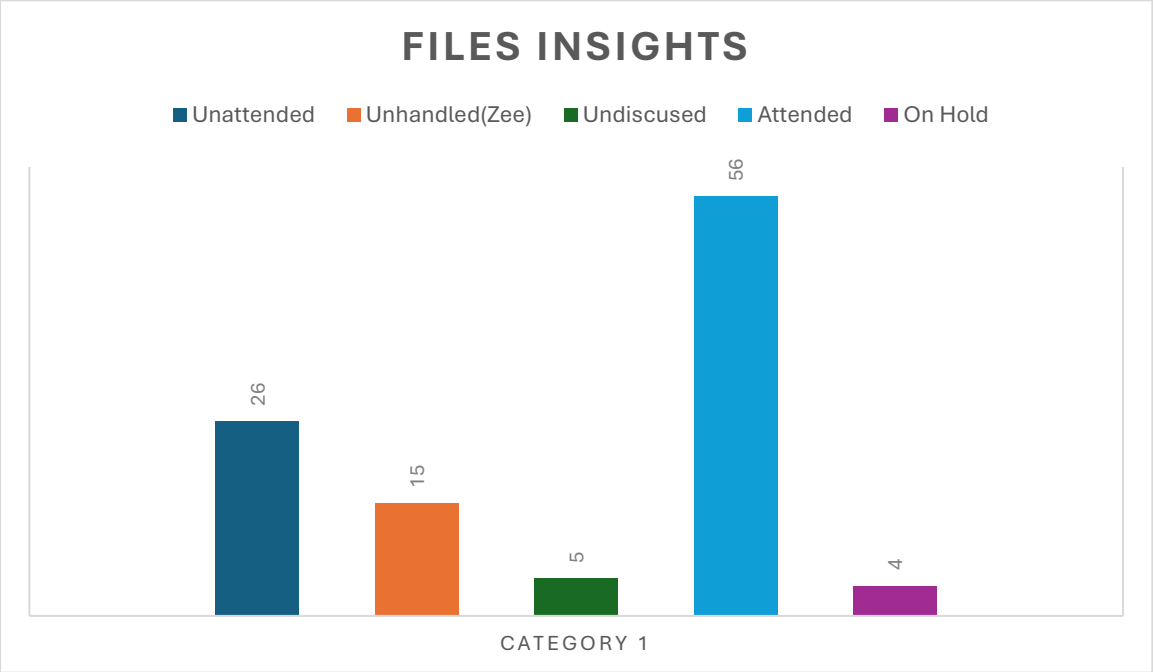
Files Summary

Below is a summary of all files within Admin department:



- As of 02 February 2026 we, in my calculations had 106 files at the office shelves.
- 26 of these files belonged to Akhona Jobe listed as **Unattended** since they were not properly nor formally handed over to anyone,
- 15 more of files belonging to Akhona Jobe listed as **Unhandled (Zee)** were handed over to Zine Tentu via systematic approach initiated by Mr Sibiya, Zine left the company and those files are now Unhandled Files.
- 5 files were **undiscussed** files, Mr Mbuyazi did not formally hand these files, his system was to write on the file that it belonged to someone e.g. Jobe.
- 56 files are being **Attended** and worked on respectively by Gumede, Adam & Mpungose.
- 4 files are **on hold.**

In my analysis, 50 client files are currently unattended. This excludes all files that are not physically at the office
