PROJECTS

Github :https://github.com/2kTeegawozi

Weather App
Kotlin | Android | Android Studio
I Developed an API based app that fetches daily weather forecast using Kotlin as my programming language, I utilized Openweather API for fetching weather conditions and temperatures while using Github for version control.

Feeding Scheme App
Java | Android | Android studio
I took part in a group project where we developed a Feeding Scheme App using Java and firebase as our database. I was responsible for backend and requirements gathering using SDLC and Agile Methodology

School Management System (SMS)
C# SQL | Web App | Visual Studio
During my final year I was a team leader and a programmer for a year long ASP.NET MVC project where we developed a system that accepts registration applications and allowed students to enroll and used API to add write test feature, later the project was focused on School Library Management. I also took part in Requirement gathering & planning for this project
